Some of the equations in Sec. III, where a generalization of the scattering matrix method for birefringent media is presented, should be modified. The corrected Eq. (17) reads

\[
\begin{pmatrix}
\hat{Y}_0 \\
0
\end{pmatrix}
+ \begin{pmatrix}
\hat{k}_x \hat{k}_x \\
\hat{k}_x \hat{k}_y \\
\hat{k}_y \hat{k}_x \\
\hat{k}_y \hat{k}_y 
\end{pmatrix}
\begin{pmatrix}
\hat{Y}_x \\
0
\end{pmatrix}
= \omega^2 \begin{pmatrix}
\phi_x \\
\phi_y 
\end{pmatrix}.
\]

In Eqs. (19) and (30)

\[
\mathcal{H}_t = \begin{pmatrix}
\hat{Y}_0 \\
0
\end{pmatrix}
,
\]

in Eq. (21)

\[
\mathcal{E}_t = \begin{pmatrix}
\hat{Y}_0 \\
0
\end{pmatrix}
,
\]

and in Eq. (23)

\[
\mathcal{E}_{xy} = \begin{pmatrix}
\hat{Y}_y & -\hat{Y}_x \\
-\hat{X}_y & \hat{X}_x
\end{pmatrix}.
\]

All the other results presented in the paper, including eigenvectors’ orthogonality relations and numerical calculations, are unaffected by the above corrections.
