

Publications by Giuseppe Giuliani in Solid State Physics

1. α and β bands in KCl and NaCl, G. Chiarotti, G. Giuliani and D.W. Lynch, Nuovo Cimento, 18, (1960), [989-991](#).
2. X-ray production of α centers in KCl at liquid helium temperature, G. Giuliani, A. Perinati, E. Reguzzoni, G. Chiarotti, Sol. State Comm., 3, (1965), [161-164](#).
3. Meccanismi di produzione di centri di colore in alogenuri alcalini, G. Giuliani, Studia Ghisleriana, Pavia, (1967), 259-280.
4. New evidence for the model and the process of formation of Z_1 centers, G. Giuliani, J. Phys. C- 4, (1967), [175-177](#).
5. X-ray production and thermal annealing of Frenkel pairs in KCl, G. Giuliani, E. Reguzzoni, Phys. Stat. Sol., 25, (1968), [437-448](#).
6. Evidence for the existence of two components of V_1 band in KCl, G. Giuliani, Nuovo Cimento, 58B (1968), [366-368](#).
7. Migration of anion vacancies and formation of complex colour centres in KCl, G. Giuliani, J. Phys. Chem. Solids, 30 (1969), [217-223](#).
8. Colour centres production in sodium doped KBr at 80 K, G. Giuliani, Sol. State Comm., 7, (1969), [79-82](#).
9. Interstitial stabilisation and color center production in KBr, G. Giuliani, Phys. Rev., B2, (1970), [464-471](#).
10. Room temperature colorability of alkali doped KBr, G. Giuliani, A. Gustinetti, A. Stella, Phys. Rev., B4, (1971), [2054-2057](#).
11. Optical transition to the Fermi level in Na_xWO_3 , G. Giuliani, A. Gustinetti, A. Stella, Phys. Lett., 38A (1972), [515-516](#).
12. Lineshape of ER spectra in WS_2 , G. Campagnoli, G. Giuliani, A. Gustinetti, A. Stella, Sol. Stat. Comm., 11, (1972), [945-949](#).
13. Electroreflectance of bound excitonic states in semiconductors, G. Campagnoli, G. Giuliani, A. Gustinetti e A. Stella, Surf. Science, 37 (1973), [855-862](#).

14. Back reactions in color center production: a study of a di-interstitial center in Li-doped KBr, G. Campagnoli, G. Giuliani, S. Malusà, Phys. Rev., B13, (1976), [2625-2628](#).
15. New metastable absorption bands in KBr, G. Giuliani, S. Malusà, V. Mitra, J. Phys. C14, (1981), [L1073-1076](#).
